CAREER OBJECTIVE

I want to build AI/ML systems that actually matter — not just technically, but in how they change real lives. I bring curiosity, hands-on experimentation, and a relentless drive to transform raw data into smart decisions that solve real-world problems.

INTERNSHIP

UpTo Skills – AI/ML Intern Mar 2026 - Jun 2026

- Developed SyncAura, an AI/ML solution at UptoSkill that reduced data redundancy by 40%, enabling faster and cleaner data processing across large-scale datasets.
- Streamlined data management pipelines, improving data accuracy by 35% and helping the organization handle 3x more structured data efficiently.

PROJECTS

Personalized Medicine Jun 2026 - Present

- Built an AI-powered Personalized Medicine recommendation system that analyzed patient data with 85%+ accuracy, enabling faster clinical decision-making.
- Reduced manual diagnosis effort by 40% by leveraging ML models trained on 10,000+ patient records to deliver tailored treatment suggestions.

Personalized Calorie Burn Prediction Dec 2025 - Jan 2026

- Developed a Personalized Calorie Burn Prediction model using ML algorithms that predicted individual calorie expenditure with 90%+ accuracy.
- Processed 5,000+ user data points, and delivered personalized fitness insights that helped users optimize their workout plans 3x more effectively.

EDUCATION DETAILS

B.Tech	Sanjivani College Of Engineering	CGPA: 8.6	May 2027
	Pursuing Electronics And Computer Engineering		
HSC	Ashoka Universal School	70 %	Aug 2023
SSC	Rasbihari International School	69 %	May 2021

CERTIFICATIONS

- Fundamentals of artificial intelligence by Google.
- Foundation of Machine Learning by IBM.
- Data Analyst by Tata

SKILLS

- Technical Skills:** Python, Machine Learning, Web Development, Database Management, Basics Of Blockchain, Git, Basic Docker.
- Soft Skills:** Teamwork & Collaboration, Problem-Solving, Leadership, Time Management.

LANGUAGES

- English
- German (A2)
- Hindi
- Gujarati
